General Plan Update

The City of Sacramento has initiated a comprehensive update of its General Plan. The General Plan is a State-required legal document that provides guidance to decision-makers when making determinations about the allocation of resources and the future physical form and character of development in the City. Sacramento's existing General Plan was adopted in 1988 and needs to be updated to reflect current conditions. The following describes each document and its availability.

Technical Background Report

The Technical Background Report (TBR) is a technical product of the General Plan update process. The purpose of the TBR is to provide a profile and analysis of existing conditions pertaining to the City. Existing physical, social and economic conditions are described for the baseline date of December 2004. Specifically, the TBR provides information about existing conditions in the City and touches on a variety of issues including land uses, economic development, transportation, parks, finance, utilities, etc. The TBR will be used as a foundation document for the development of subsequent planning policies and programs, and also as a basis for preparing the "Existing Setting" section for each topic of the Environmental Impact Report. Public review comments and additional information that corrects or updates data in this document will be included in an appendix or errata sheet.

Town Hall Forum Summary

The first set of 14 Town Hall Forums took place in May and June 2005. A summary has been prepared which provides an overview of the results of the input from the public participation. The Summary also outlines how this input will be used in the development of the new General Plan.

Hi Dawn:

I spoke with Nancy and neither of us were sure whether the General Plan reports to Council on September 27th and October 18th would be considered staff reports or public hearings? Both meetings include a notice to the public and resolutions that will be adopted by Council. Could you let us know when you have a chance?

In general, what is the criteria that determines whether a meeting is a staff report or a public hearing? Since neither of us knew, that information might also be helpful to include in the new procedures manual that the Clerk's office is putting together.

Thanks,

Desmond

General Plan Update

The City of Sacramento has initiated a comprehensive update of its General Plan. The General Plan is a State-required legal document that provides guidance to decision-makers when making determinations about the allocation of resources and the future physical form and character of development in the City. Sacramento's existing General Plan was adopted in 1988 and needs to be updated to reflect current conditions. The following describes the documents under consideration and their availability.

Planning Issues Report

The Planning Issues Report was also prepared as part of the General Plan update process. The document identifies and defines key issues brought forward in the first phases of the General Plan Update. The report was based on early input from focus group interviews, GPAC Interviews, the Town Hall Forums, the Technical Advisory Committee, City staff, and the Technical Background Report (TBR). The Issues Report will be used as a foundation document for the development of subsequent General Plan goals, policies, and programs.

(over)

Vision Statement & Guiding Principles

The Vision Statement & Guiding Principles is a document that sets out the key aspirations for Sacramento's future and identifies the important principles which will guide the development of the General Plan through the rest of update process. This vision and subsequent principles will be used to help define future land use development patterns for Sacramento and will shape the General Plan goals and policies. The Vision Statement & Guiding Principles will be adopted by Council prior to the formulation of the new General Plan document.

Document Availability

The Planning Issues Report and the Vision Statement & Guiding Principles are available for public review and comment. The documents are available on the following website: <http://www.sacgp.org/>. Hi Dawn:

One notice is for the Council meeting on 9/27 for the General Plan Technical Background Report. Please send that out by 9/17.

The other is for the Council meeting on 10/18 and includes the Planning Commission date of 9/15. If that notice could be sent out this week that would be great. We are using that notice for both the Planning Commission and Council meetings.

If you have any questions, let me know. Thanks for your help with this.

Subject: Notices for General Plan Council Hearings

Hi Jeri:

Attached are the two notices for the General Plan hearings before Council on September 27th and October 18th.

The first file called: GP-TBR_Notice_Final_9-27-05.doc is the new notice for the September 27th Council hearing on the General Plan Background Report. That should be sent out prior to the 27th hearing using the mailing list in Excel that Remi Mendoza sent you a couple weeks ago.

The second file called: GP-Issues-Vision_Notice_Final_10-18-05.doc is the notice for the October 18th Council hearing on the General Plan Vision and Guiding Principles and the Issues Report. Please use the same mailing list that Remi sent you. (I have attached that Excel file just in case you didn't receive it earlier). If possible could you have the clerk's office send this notice out prior to September 12th? The notice include the dates for the GPAC and Planning Commission as well as City Council. If it is sent out early, folks will get it before the September GPAC and Planning Commission hearings, which will be very helpful to us.

Let me know if you have any questions.

Thanks,

Desmond
