Please do NOT rehire a retiree who is getting retirement benefits as a staff aide. There are many, many, many unemployed workers in the City of Sacramento who could benefit from a City job. If there is an argument that this person is the only person with adequate knowledge to fill this job, then shame on the department for not anticipating her retirement and ensuring she has a suitable replacement. Promote from within or hire from outside or leave vacant, but do not allow this retiree to double dip! Under any circumstances.

I am in support of establishing a homeless shelter at the Alhambra Broadway intersection. This is a central area close to other services and already has many homeless people living under the freeway. Providing more services and shelter would be very valuable here. Thank you for your work on this issue.

I oppose the homeless shelter the mayor recommends near Pannell community center in meadowview. I serve on a regional homeless shelter board of directors. After 30 years of housing experience, I know the shelter cannot be successfully placed in a residential neighborhood. Especially considering that the local city council member, Larry Carr, is against the location near Pannell. Is Steinberg going to suggest a homeless shelter in Seymour Park next? I'll be the first to fund a recall campaign of he and all council members who do not oppose it.

I am a homeowner in Poverty Ridge and support the proposed Alhambra/Broadway Homeless Center. This area has many homeless people walking the streets routinely and living under the freeway. Most of them are very polite, but have used my front yard hose to bathe, add water to a water bottle or cool off in the heat of the summer. Allowing a place for the homeless to sleep safely at night, get needed services, and help them get out of poverty will be a great asset to the Community. Michal Healy

Without being able to read the supplemental material makes it difficult to be specific, but CM Carr's position in opposition to the shelter next to the Pannell Center should be given the greatest weight during any discussion of this issue.

It seems that the money appropriated for this problem, and it is a problem, has made no difference what so ever to the big picture of homelessness in Sacramento or California overall. In fact all the new social programs, the climate and the relaxation of laws for crime connected to homelessness has made California a haven for this situation and resulted in increasing the numbers living on our streets. We need to look for a 'Best Practices' solution from others than those whose ideas have FAILED. We must make homelessness unattractive. We must remove the mental health threat from our streets and we must punished law breakers with meaningful and

appropriate retribution.

Most of the triage homeless shelters are located in the Central City planning District. Using data from the Railroad drive model it showed 33% (217 people) were transported more than 1.5 miles to the shelter from all over the City. Of the 658 participants 40% (263 people) were housed, leaving 56% (368 people) un-sheltered. This leaves a big unanswered question, how people were housed from the surrounding area? Was there a net increase of un-sheltered persons surrounding the area? This result would have a severe economic impact on the Central City that is not analyzed. Many National & Local investors are concerned about the impact of homelessness on the Central City and City's response to the issue. A net increase of un-sheltered persons could delay or abandon their Central City investments.

People become homeless all over the City and there should be services near them. A 100 bed shelter may not be the best option for all areas. Smaller bed sites in every area & not every district.

“Hot Shot” program. The Hot Shot program funds a cleanup team to respond to calls throughout the River District, on both public and private property. The impact of over-concentrating homeless services in the River District is not isolated to the River District. Many homeless services are less than 500 feet from household in the Alkali & Mansion Flats neighborhood. This program should be expanded to include the neighborhood that receives the daily impact without any support from the City or County of Sacramento. Reducing the current budget to accommodated the calls for service from the River District doesn't fairly address the issues that surrounds the homeless service area. This area is known as the Homeless Service Triangle, (HST). The HST is bound by North 12th Street, North 16th Street and the Railroad tracks to the South.

It would be helpful to have the document available for review prior to the meeting.

I am in full support of a safe parking program in Sacramento. I have seen more and more people living in their cars and a safe place for them to receive services and rest has potential to help alleviate the problem. These are

our neighbors and community members. Thank you

I am full support of this item. I personally would support going further and establishing some parking areas for vehicles to stay during the day as well, as some of these folks have day time jobs; and some who need to park and sleep, have night times jobs. These opportunities for a safe place to park at night are long overdue. Thank you for bringing this forward. Heather Fargo

I am oppose to the homeless shelter in Meadowview because it's obvious that the Mayor is modifying his original plan for the site because he thinks it is more palatable for neighbors. It's not. I stand with my city council man Larry Carr in is opposition. The Mayor has shown himself after the Railroad Drive homeless site to be untrustworthy and scheming when pushing through his agenda. We voted for Larry Carr to represent our district. Meadowview needs to heal itself and doesn't need anymore negative stories like the Mayor stating most of the calls about the need for homeless assistance comes from Meadowview. Its everywhere, it just that the homeless in the Meadowview area are actually calling to get help! People in Meadowview to not want this site as a homeless shelter PERIOD!
