## Request for Public Hearing on Rental Housing Inspection Program

Good evening Council members, my name is Michael Keenan and I am here representing myself as a resident of the City of Sacramento. I am here today to ask the Council for their reconsideration of the provisions of the Sacramento Rental Housing Inspection Program.

As I stated last week, I believe my 4<sup>th</sup> Amendment right to be secure in my home against unreasonable searches without probable cause has been abrogated by City Code Chapter 8.120, Section 110 B, passed by this Council March 4, 2008.

I request that the Council direct staff to agendaize the matter to hold a public hearing to consider the adoption of an additional provision to limit inspections to pre-occupancy only. This will satisfy the goals set forth in the ordinance while restoring tenants' constitutional rights.

I thank you for your time and I look forward to being able to resolve this matter.

Michael Keenan

Lytell Steffensen

Position: Support

Comment: Because of the economy the way families are theses day a good thing would be able to have a few hens as pets and egg layers. We need to do it before the Spring so we can get things going before the Summer. This would also be a good opportunity for children to learn a responsibility. We have lots of big back yards in Sacramento.

#12

*The Green Capital Alliance partners Sacramento area businesses, local government, community organizations, education & research institutions, and utilities to promote sustainability and grow the clean tech cluster of the Sacramento Region.*

January 8, 2010

The Honorable Mayor Kevin Johnson  
Honorable Members of the City Council  
Office of the Mayor and City Council  
915 I Street  
Sacramento, CA 95814

Dear Mayor Jonson and Councilmembers,

On behalf of the Green Capital Alliance I am pleased to provide this letter of support for the CaliforniaFIRST pilot program. The Green Capital Alliance unites employers, academic and research institutions, economic development and community organizations, and local governments to build the clean energy technology sector in the six-county Sacramento area and make our region a leader in sustainability. Your support of this program is critical factor in our region's ability to offer new financing tools for building energy retrofits and to stimulate the local clean energy economy.

In 2009 the Green Capital Alliance hosted a series of four roundtable sessions with 35+ leaders of local clean energy firms. Many of these companies were halting or reversing growth due to our dramatically stunted economy. Many described a customer base with high interest in new energy solutions, but limited ways to finance these improvements. These company leaders made a consistent request for AB 811 implementation in our area. If you are interested in learning more about the outcomes of these sessions with local employers, a complete report of the findings is available on our website.

We recognize the importance of making the benefits of energy efficiency and renewable energy technology available to our community. The CaliforniaFIRST pilot program will not only help individual families and businesses better manage their energy usage, it will also create jobs, stimulate the local economy, and help lower our region's carbon footprint. It is a clear demonstration of the region's commitment to being responsive to the needs of the clean energy companies, which is an important step toward expanding the significance of this sector in our economy.

To help support the implementation of California FIRST, the Green Capital Alliance will play a key role in educating local energy efficiency and clean energy contractors about how they can benefit from this new business opportunity. If you have any questions regarding the Green Capital Alliance's partnership with this effort, please do not hesitate to contact me at 916-325-1630 or [kristine.mazzei@valleyvision.org](mailto:kristine.mazzei@valleyvision.org).

Sincerely,

Kristine Mazzei
