Honorable Members In Session:

SUBJECT: Base Repair By Cold Planing and/or Recycling at Various Locations
(PN:RB96) - Project Approval and Bid Advertisement

SUMMARY

Plans and Specifications have been prepared for this project. Approval of the plans and specifications and authorization to advertise for bids is recommended.

BACKGROUND

The Street Division uses a contractor to prepare small areas of street surface for repaving. The contractor is used on an on-call basis to work at the various locations throughout the City as each location requires repair, thus the contract is let on a time and material basis. The Street Division estimates that the total cost for Fiscal Year 1987-88 will be \$70,000.

FINANCIAL

Sufficient funds are available for this project. The estimated total project cost, including all planning, design and construction costs, is \$75,000. The current budget is \$300,000, which was approved in the Capital Improvement Program from Gas Tax Funds.

A non-refundable fee of \$10.00 will be charged for each set of plans and specifications to cover reproduction costs.
